Production Welder / Fabricator

At Fast Intentions Inc. we specialize in the manufacturing of high-performance automotive exhaust systems, as well as custom fabrication and welding.

We are looking to add a motivated, self-starter to our production team. The ideal candidate will be reliable and positive and will represent our brand with integrity and professionalism. You must work well on a team, as well as be capable of working independently. You will need to be a quick learner of our processes and systems and maintain a high level of attention to detail.
